

Peter Noursi, P.E.

President

General Qualifications

Mr. Noursi joined *Oyster, Imus, Petzold*, in 2007 after working for 20 years with the M-NCPPC Department of Parks in Montgomery County, Maryland. With the Department of Parks, Peter held positions of increasing responsibility, that included planning, design and construction of parks, as well as managing the engineering unit that over saw Park Development. Among his duties he reviewed designs by staff, and outside consultants, developed standard details for use in Park construction, and assisted in the automation of the design process for the Division.

Peter has extensive civil engineering experience in storm drainage design, hydraulics, field construction, play grounds and recreational areas, hiker-biker trails, parking lots, stream bank protection, stream restoration, and storm water management.

Peter has a thorough working knowledge of Computer Aided Design and Drafting (CADD), and is conversant in both AutoCad and Microstation. New projects initiated by OIP can now be completed in a 100% digital format.

Years with OIP:

1

Years with other Firms / Agencies:

20

Education:

B.S. in Civil Engineering,
Marquette University
M.S. in Civil Engineering,
University of Maryland

Registration:

Professional Engineer:
Maryland: 22144

Professional Societies:

American Society of Civil
Engineers
